

OnCue IP "P" NVR Series

VT-NV "P" Series Stand-alone Real-time IP Network Video Recorders with Real Time Recording on all channels at 1080P and shares the same local and remote software platform as our award winning On Cue HD-SDI recorders. The Advanced On Cue Central Monitoring software (CMS) is capable of connecting multiple On Cue NVRs and HD-SDI/ EX-SDI recorders. Up to 6 Internal SATA2 HDD Slots support up to 24TB (6 x 4TB HDD) using Advanced HDD Format plus optional eSATA for storage expansion (up to 5 more HDD).

VT-NV "P" Series:

8, 16, and 32 Channel Real Time 1080P Network Video Recorders

Features:

- 8, 16, or 32 Channel Stand-alone Real-time IP Network Video Recorders
- Full HD (720/1080p) Real-time recording, live display, and playback
- Panorama (Thumbnail) Search
- HDMI, VGA, and BNC Outputs
- H.264 & MPEG4 Dual Streaming Compression Method
- Plug and Play & Auto configuration for ONVIF compliant and many leading IP Camera models
- P2P (Peer to Peer) camera connection supported by internal Hub
- Health monitoring: Temperature, Fan speed, HDD S.M.A.R.T
- Alarm In/Out
- Per channel Image Adjustment
- Internal 8-Port PoE Switch
- 1 Gigabit LAN Port / 1 Gigabit WAN Port
- Video Analytics with Search Feature (Camera dependant)
- Linear Digital zoom / Automatic sequencing / Freezing
- Quadplex (Live / Record / playback / network)
- Remote Viewing via CMS Software, Internet Explorer, and Mobile Phones (iOS/Android)
- Web-based remote configuration
- Supports up to 24GB Internal Storage (6x4TB)
- eSATA for storage extension of up to 5 more HDD
- Bidirectional Audio Support
- Dual Recording and/or RAID 5 for data integrity
- RS485 Communication port
